HOW TO BUILD WARGAMES SCENERY THE EASY WAY

I often hear: "I wish I could scratch build like you". Well, I am telling you that you can if you put your mind to it! Scratch building is not difficult and it does not have to be time consuming when you use the proper tools and techniques. You do not even have to be creative; I will be creative for you!

With this series of "how to" books I will teach you step by step how to build stunning models that will make people's heads turn. I will even do the hard work for you by providing you with templates so that you can start to build in no time. Just give it a try and you will soon see that "you CAN scratch build like me".

Alfons "Fonzie" Libert

WORLD WAR TWO - NORMANDY VILLAGE

This book contains templates and instructions to build the following buildings, enough to build a complete WW2 Normandy village:

- Norman Church
- Atlantic Wall Bunker
- Farm House
- Grocery Shop
- Town hall / Gestapo or Wehrmacht Headquarters
- Town House

The buildings are pretty generic so they can also be used for many other campaigns and operations in the European Theatre. They all have lift-off roofs so that you can place your troops inside.

Variations are given where possible and the templates can easily be altered to obtain new buildings.

- Full colour illustrations.
- Step by step building instructions.
- Dimensions for 15, 20 and 28mm.
- Templates and plans.
- Tips & tricks
- US Letter Format / A4 printable
- Game pictures where possible.
- Comprehensive painting guides.
